Traceability Between Project 1 and Project 2

Project Phase 1	Project Phase 2
Focus on Product	Focus on Process
Prototype created	Initial Development done
WRS v1	WRS v1.1 (Final) contains changes according to ontology of project
Questionnaire	Updated Questionnaire
Project Plan created	Project Plan updated with deadlines accomplished
-	A comprehensive document called Vision document is created which provides a clear and concise understanding of projects vision with the help of UML diagrams, etc.
Creeping rate is established	Creeping rate is updated and finalized by looking at rate of changes and keeping buffer for future changes in mind
-	PIG and SIG diagrams are created for stating clearly the softgoals and soft problem which help in decision-making.
